4. Safin Rahatil Tanim	22-48551-3	Expert & functionalities	25%

Date of Submission: **JANUARY 02, 2024**

ER Diagram:

Story:

As a user of Shomvob, a variety of vehicles can be chosen for riding, whether opting for a solo experience or sharing the ride with others. Payment for each ride is required, accompanied by the provision of a rating and comments about the driver through the app interface. Points are awarded for every completed journey, and these accumulated points can be utilized later to avail discounts.

Ensuring safety in all circumstances, **Shomvob** integrates its proprietary location tracking system, providing a secure environment for both users and drivers. A significant safety feature is the inclusion of an 'SOS' button, accessible to both users and drivers. In case of any concerns or emergencies, the 'SOS' button allows the reporting of complaints. These complaints are subsequently relayed to the police through the administrative panel of **Shomvob**.

The seamless integration of these safety measures into the app ensures a secure and reliable experience for users, allowing for worry-free rides and prompt assistance in any unforeseen circumstances.

As a Rider of Shomvob, rides are either allocated by the system or offered voluntarily when free time permits. The system ensures that the rider is not displayed as available without their agreement. Payments for rides are seamlessly facilitated through the system, and the rider can access their ratings, gaining insights into their overall performance.

In instances of challenges such as vehicle repairs or an empty fuel tank, solutions can be obtained through the system's service center. The rider is directed to the nearest fuel station or repair shop, ensuring a prompt resolution to any encountered issues during journeys. In a collaborative spirit, riders have the option to transfer their consumers to other riders during such circumstances.

For each completed ride, points are accrued by riders, accompanied by receiving reviews that contribute to their standing within the **Shomvob** community. These accumulated points, serving as tokens of appreciation, can be employed to acquire gift cards, providing a rewarding experience beyond mere monetary compensation. The 'SOS' button is also at the disposal of riders, enabling them to take preventive measures for their safety.

The incorporation of these features into the app creates a seamless and supportive environment for riders, fostering a sense of community and empowerment within the **Shomvob** platform.

As an Expert of Shomvob, mechanics typically find employment under the administration or the creators of the system. Responsibilities encompass the management of various aspects, including payments, ratings, online solutions, and points. The mechanics are integral in ensuring the smooth operation of the system.

When mechanics find themselves available, they have the capability to locate nearby riders seeking repair services through the system. This allows for a seamless connection between mechanics and riders, facilitating the provision of repair services. Earnings are easily garnered by mechanics through the **Shomvob** platform.

The system, administered by the creators, streamlines the process for mechanics, creating an efficient means of accessing riders in need of repair services. This approach not only benefits mechanics by offering opportunities to earn, but it also enhances the overall functionality of the **Shomvob** App, providing a comprehensive and user-friendly experience for both mechanics and riders alike.

PRIVACY AND POLICY

[Details](#)[History](#)[Privacy and Policy](#)

1. Information We Collect: Personal Information & Professional Information expertise in Shomvob mechanics certifications and qualifications

2. How We Use Your Information: Connection with riders your name and expertise will be visible to nearby riders seeking repair services on the Shomvob platform. Location data will be used to connect you with riders in need of repair services in your vicinity. Your payment details will be used for processing payments for the services you provide through the Shomvob App.

3. Information Sharing: Only necessary information (name, expertise, location) will be shared with riders seeking repair services. Limited professional information may be shared with the administrators or creators of the Shomvob system for system management purposes. Information may be disclosed if required by law or in response to a valid legal request.

4. Security Measures: All personal and professional information is encrypted to ensure its security during transmission and storage. Access to your information is restricted to authorized personnel only.

5. Your Rights: You have the right to access and correct your personal information stored on the Shomvob platform. You can request the deletion of your account and associated information by contacting Shomvob support.

6. Changes to Privacy Policy: Any changes to the Privacy and Policy will be communicated to you through the Shomvob App.

7. Contact Information: For any questions or concerns about this Privacy and Policy, please contact us at [Contact Email/Phone].

History

Privacy and
Policy

1. **Data Collection:** Shomvob collects various types of information from riders, including personal information such as your name, email address, phone number, and payment details.
2. **Use of Information:** Shomvob uses the collected data to provide and improve its services, including ridesharing, customer support, and safety features. They may also use the information for marketing purposes, but users usually have the option to opt out of promotional communications.
3. **Sharing of Information:** Shomvob may share your information with drivers, payment processors, and other service providers necessary for the operation of their services. In some cases, information may be shared with law enforcement or regulatory authorities if required by law.
4. **Security Measures:** Shomvob typically implements security measures to protect the personal information of its users.
5. **Third-Party Apps:** If you choose to connect your Shomvob account with third-party apps or services, your information may be shared with those third parties.
6. **Cookies and Tracking Technologies:** Shomvob's website and app may use cookies and other tracking technologies to collect and store certain information automatically.
7. **Updates to Privacy Policy:** Privacy policies are subject to change, and Shomvob may update its policy from time to time. Users are usually notified of any significant changes.
